Pacific Disabilities Center (PDC)

is affiliated with the University of Hawai'i, John A. Burns School of Medicine (JABSOM) and contracted by the Hawai'i State Department of Health, Developmental Disabilities Division, Neurotrauma Supports.

Hawai'i Neurotrauma Registry

Prevention - Education - Information
on neurotrauma injuries:

- Brain Injuries
- Stroke
- Spinal Cord Injuries

We offer:

- Free Information and Referral services
- Free presentations and educational materials
- A brief survey for neurotrauma survivors for Hawaii residents of all ages

Holu lehua means "resilient"
lehua. People with
neurotrauma injuries are
resilient like the lehua.

Why have a Neurotrauma Registry?

We want to understand the needs of Hawai'i residents of all ages who have had a stroke, traumatic brain injury or concussion, and/or spinal cord injury. This information will help us know what services are needed the most.

The Neurotrauma Registry offers:

- Personalized information and referrals for persons and families with neurotrauma injuries.
- The chance to provide valuable information that will help identify needed community supports and services, educate service providers, and develop safety and prevention plans and policies.

Your information is confidential

Pacific Disabilities Center and the Department of Health comply with applicable Federal civil rights laws and do not discriminate on the basis of race, color, national origin, age, disability, or sex.
